

LE HONG NHUNG

Data Research & Management Specialist

CONTACT	PROFESSIONAL PROFILE
Mobile: (+84) 374 533 001 Email: nhung168@gmail. com Portfolio: nhungleh.com Location: Remotely Based	A dedicated data research and management professional with over a decade of experience designing and managing data systems, conducting global systematic reviews, and leading complex research projects. Proven expertise in transforming raw data into actionable insights for international organizations like the World Bank, USAID, and WWF. My work is focused on building robust, evidence-based frameworks to inform policy in public health, climate change, and economic development.

AREAS OF EXPERTISE

- **Data Management & Systems:** Data Lifecycle Management (Collection, Processing, Storage, Analysis), Database Design & Development, ODK, SurveyCTO, KoboToolbox
- **Research & Evidence Synthesis:** Global Systematic Reviews, Evidence Gap Maps, Baseline & End-line Studies, Impact Evaluations, Risk Analysis
- **Data Analytics & Modelling:** R (RStudio), Python (Jupyter), SPSS, Quantitative & Qualitative Analysis
- **Data Visualization:** Tableau, RShiny

EDUCATION

07/2017 – 02/2018	THE GRADUATE INSTITUTE GENEVA Executive Master, Development Policies & Practices
08/2009 – 05/2013	FOREIGN TRADE UNIVERSITY International Business Administration

PROFESSIONAL EXPERIENCE

04/2024 - Current	Data Analyst Economist Data Management Lead: System Design:	Mekong Economics Served as Data Manager for three extensive World Bank Enterprise Surveys, overseeing the entire data pipeline for the Cambodia Informal Business Survey 2023, the Philippines Green Economy Survey, and the Technology Adoption Survey 2023. Architected and managed ODK-based data collection systems, including sample frames and field management tools to monitor data collection targets.
--------------------------	--	---

**PROFESSIONAL
EXPERIENCE**

	Data Co ordination:	Coordinated the full data lifecycle, from collection and processing to storage, retrieval, and analysis, ensuring strict adherence to data management protocols.
07/2022 – Current	Research Consultant, Systematic Reviews Reviewer:	The International Initiative for Impact Evaluation (3ie) – UK SRO Conducts global systematic reviews for impact evaluations, synthesizing evidence to identify what works in addressing irregular migration and reducing anaemia in low- and middle-income countries.
	Data Extraction:	Contributed different Evidence Based Gap Maps to the review and categorization of thousands of global research works across diverse taxonomies, including Active Labour Market, Conflict Management, and Legal Pathways for Migrants.
10/2022– 10/2023	Monitoring Evaluation & Learning Officer MEL System Development:	Mekong Institute – Thailand Designed and operationalized a transparent and accountable Results-Based Management (RBM) system and developed web-based MEL systems to track program performance.
	Data Framework Design:	Developed indicators, reference manuals, and data collection tools to measure Performance Indicators within the institute’s Logical Framework Matrices (LMF).
	Research Co laboration:	Successfully secured research grant collaborations with academic and research partners to strengthen evidence-based programming
05/2022 – 12/2023	Consultant M&E System Design M&E System Architecture:	IDH – The Sustainable Trade Initiative Designed and deployed a complete M&E system to monitor and evaluate the “Promoting high-quality exports from Vietnam” program (EuropeAid), from baseline KPIs to end-line evaluation planning.

**PROFESSIONAL
EXPERIENCE**

	Stakeholder Data Engagement:	Rolled out the M&E system with engagement from diverse stakeholders, including the Vietnam Pepper Association and cooperatives, ensuring data served the development pathways of EU and IDH frameworks.
01/2021 – 04/2021	National Data Analyst Consultant Database Development: Data Synthesis & Mapping:	Pact Thailand – Lower Mekong Initiative (LMI) Designed and developed a Lower Mekong water-related socio-economic database by reviewing, analyzing, and extracting data from national, provincial, and district levels. Delivered comprehensive data synthesis for over 50 Vietnam subdistricts, providing crucial mapping data for the Mekong region and identifying critical data gaps.
09/2019 – 03/2021	Monitoring & Evaluation Learning cum Partnership Coordinator Integrated MEL System: Knowledge Management:	Live & Learn Vietnam (USAID-Local Works) Created an integrated MEL System for USAID reporting, designing data collection indicators and methodologies for air pollution and health impact assessments. Built a partnership database and rolled out a knowledge management system to share research and data resources on air quality management with technical working groups.
07/2013 - 12/2017	Regional Monitoring & Evaluation Assistant CBO Support Project Officer System design:	WWF - Greater Mekong Improved proposal screening policy by managing a centralized database called Cradle to Grave (C2G) for the fundraising process in five countries (Thailand, Laos, Cambodia, Myanmar, and Vietnam) in the Mekong region

PROFESSIONAL EXPERIENCE

Data Co ordination:	Coordinated with M&E focal points in five countries for checking daily data quality to meet standards as a requirement. Consolidated, cleaned up, and visualized information data from units for mid/annual-year report which assesses KPIs in each country offices. Facilitated with partners (CBO, CSO, Forest Protection Competent Authorities) for data collection and monitoring on the ground (eg: Harvesting and Trading rattan monitoring system).
